TECHNICAL SKILLS

Programming Languages: Python, Java, SQL

AI/ML and Data: TensorFlow, Scikit-learn, OpenCV, Whisper, MediaPipe, LangChain, LangGraph, Pandas, NumPy

Data Analysis and Visualization: Power BI, Matplotlib, Exploratory Data Analysis (EDA)

Backend and APIs: REST APIs, FastAPI (basics), Docker (basics)

Databases: MySQL, MongoDB

Core CS and Tools: DSA, OOP, Operating Systems, Computer Networks, DBMS, Git, GitHub

WORK EXPERIENCE

Bittern Technologies

Noida

AI/ML Intern

May 2026 - June 2026

- Built and evaluated 2 ML/CV models using Python and Scikit-learn from data preparation to performance evaluation.
- Cleaned datasets and performed exploratory data analysis (EDA) and model evaluation using Pandas and NumPy.
- Contributed to 3 AI/ML projects involving Python, data analysis, model development, and testing.
- Designed 3 Power BI dashboards to visualize datasets and model outputs.

PROJECTS

Real-Time Speech-to-Speech Translator - [GitHub](#)

Tech Stack: Python, Whisper, NLLB-200, Tkinter

APR 2026

- Built a fully offline multilingual speech-to-speech translation system using **Whisper STT** and **Meta NLLB-200**.
- Integrated real-time audio streaming, translation, and TTS pipelines with **multithreaded processing** for responsive UI performance.
- Optimized CPU inference using PyTorch and OpenMP for low-latency execution.

Driver Drowsiness Detection System - [GitHub](#)

Tech Stack: Python, OpenCV, MediaPipe

MAR 2026

- Developed a real-time driver monitoring system using **EAR/MAR-based facial landmark analysis** for drowsiness detection.
- Implemented **MediaPipe Face Mesh** and instant alert logic for eye-closure and yawn detection on CPU-only systems.
- Created **audio-visual alert mechanisms** and live monitoring dashboards for enhanced driving safety.

H-GestureControl: Hand Gesture Laptop Controller - [GitHub](#)

Tech Stack: Python, OpenCV, MediaPipe

JUL 2025

- Engineered a hand gesture recognition system for **touch-free, real-time laptop control** using computer vision.
- Enabled cursor movement, volume control, and window switching through **webcam-based gesture tracking**.
- Combined **MediaPipe hand landmarks** with **PyAutoGUI** for low-latency system interaction and improved accessibility.

EDUCATION

Vellore Institute of Technology, Bhopal

Bhopal

B.Tech in Computer Science Engineering (AI & ML)

AUG 2023 - AUG 2027

CGPA: 8.57/10

ACHIEVEMENTS AND CERTIFICATIONS

- GRABHACK 2025 Pre-Finalist – Ranked among Top 98 teams out of 4500+ teams nationwide
- Earned Google Arcade swags through Google Cloud labs and quizzes
- Solved **300+ DSA problems** across [LeetCode](#), [GfG](#), and [Codeforces](#)
- NSS Event Volunteer – Contributed to the "10,000 Mega Tree Plantation in a Day" initiative
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional – Oracle
- Applied Machine Learning in Python – University of Michigan(Coursera)
- Google AI Essentials – Google
- Data Engineering Foundation – Informatica
